Annual Dredging Operations Ohio River

1. **To All Whom It May Concern:** Notice is given that the U.S. Army Corps of Engineers will have a contractor performing dredging operations on the Ohio River.

2. **Schedule:** Dredging is expected to take place between August 2015 through December 2015. Three locations are scheduled to be dredged during this time.

Emsworth Lock and Dam River Mile 6.2

The area dredged will be downstream lower approach, guide wall near Lowrie's Run.

Montgomery Lock and Dam River Mile 31.7

The area dredged will be inside the auxiliary lock chamber upstream of the lower miter gates.

Hannibal Lock and Dam River Mile 126.4

The area dredged will be from the lower 600 chamber miter gates to the New Martinsville Bridge.

3. **Due to river conditions, and contractor availability, the schedule will remain flexible.** Minimal delays to Navigation are expected during the scheduled dredging.

4. Mariners are encouraged to monitor **Channel 13** on their marine radios during this local work period. Using that channel, mariners can remain informed of dredge location and lock personnel will notify the mariners when any delays are expected.
