EFFECTIVE: 08/03/2015 07:00 thru 08/11/2015 23:59 EST

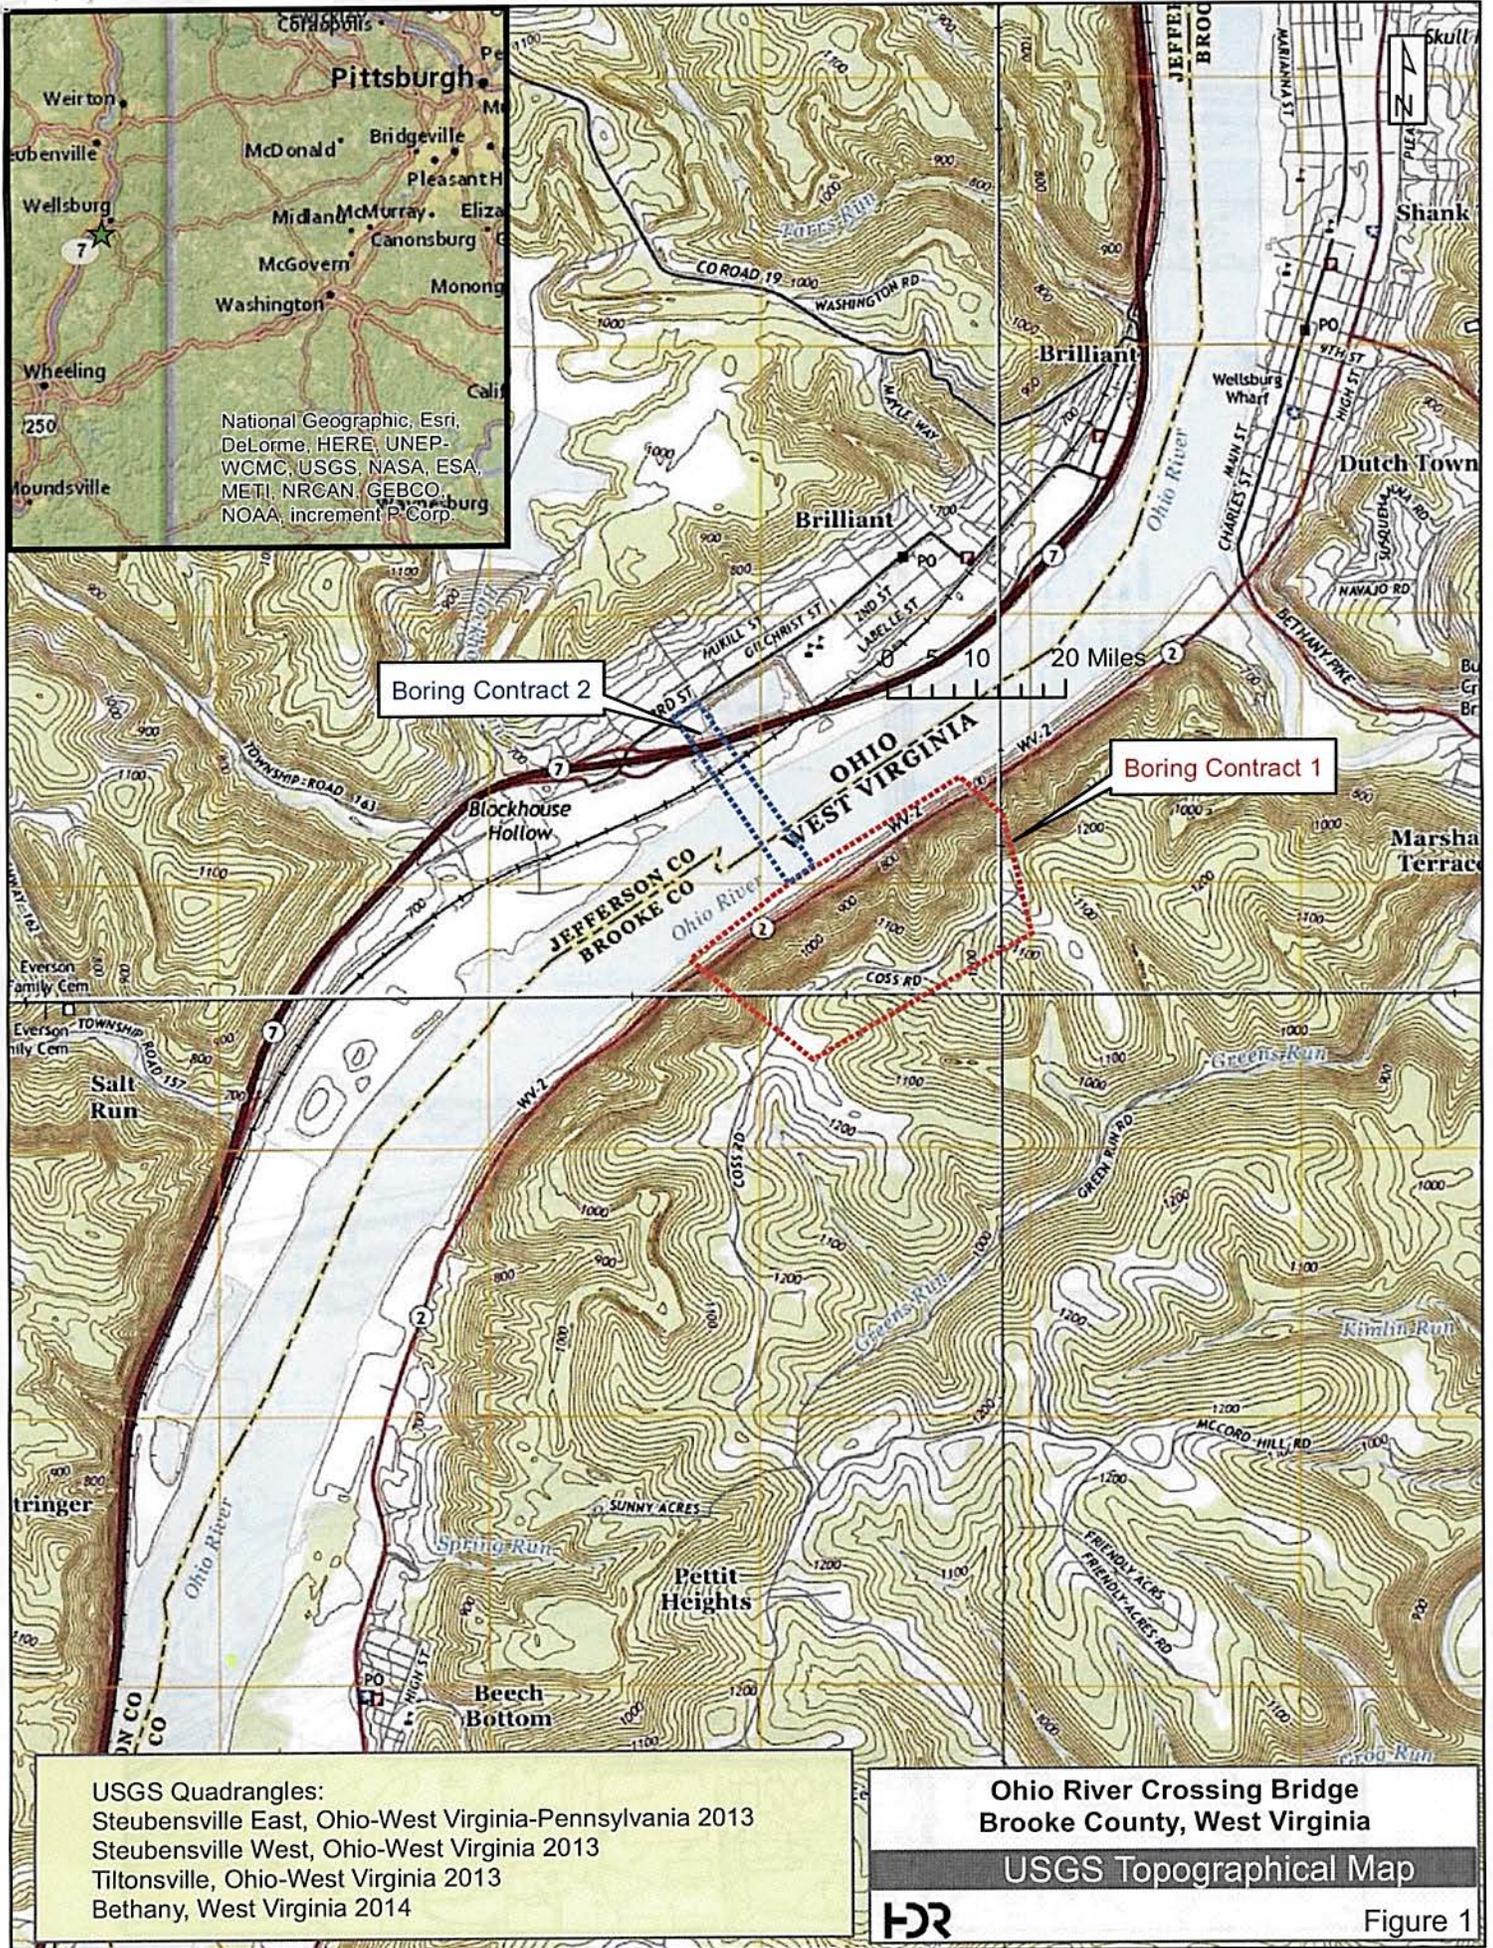

Geotechnical Drilling For Proposed Bridge Accross the Ohio River Mile 75.8

- 1. To Whom It May Concern:** Notice is given that Triad Engineering, Inc. will be performing geotechnical drilling for a proposed new bridge across the Ohio River, Mile 75.8. This drilling will be taking place approximately 530-feet from the left bank and 430-feet from the right bank (See Attached Map).
- The work is scheduled to begin on August 3, 2015 and will be completed by approximately August 11, 2015. The Contractor will be working 14 hours per day, 7 days per week, for approximately 8 days.
- Equipment to be used shall include a 35-foot by 75-foot barge with an 800 HP tow boat in addition to a small pontoon boat for transportation personnel from the shore to the drill site. The barge will contain a 8-foot by 12-foot drilling rig with associated tools. The barge will be equipped with white corner lights and running lights. The barge will only be on the river during daylight hours.
- The barge, tow boat, and pontoon will be moored at the Cardinal Power Plant located immediately downstream.
- Mariners should monitor radio frequency channels 13 & 16 while transiting in the vacinity of the work site.
