**Sand and Gravel Dredging Mitigation**  
**Ohio River Mile 36.4 Right Descending Bank**

1. **To All Whom It May Concern:** Notice is given that Tri-State River Products, Inc. will be discharging dredge material in a 40 foot deep hole in the Ohio River at River Mile 36.4 along the right descending bank and toward the center line of the river channel. This will be completed in accordance with the Sand and Gravel Dredging permit for sand and gravel dredging impacts.
2. The work will be performed beginning around December 2 and concluding by January 31, 2016.
3. Work will be performed from the M/V Stevanna Elise, Derrick Crane #5, 27x148 deck barge and 35x195 hopper barge. Additionally the work may be assisted by the M/V Timothy James, dredge Big Tom, and 54 x 135 deck barges. At no time will there be more than one asset located at the project site.
4. Mariners should monitor radio frequency channels 6, 10, and 13 while transiting in the vicinity of the work site. Please contact either Stevanna Elise or Timothy James for precise location information.
5. Navigators, please use caution in and around the area.

FOR THE DISTRICT ENGINEER:
