

Applicants are encouraged to contact the West Virginia ILF Program Sponsor (WVDEP) for pre-application consultation and/or inquiries on ILF Program participation by calling Mr. Lyle Bennett (for non-coal related projects) or Ms. Ashley Carrol (for coal-related projects) at 304-926-0495. Please be aware, the WVDEP have certain requirements for participation. For example, when a proposal to offset greater than or equal to 500 debits (or an approximate payment of \$400,000.00), as determined by application of the WV SWVM, WVDEP will review the service area as well as the availability of approved and advance credits. In the event, no credits are available the applicant may assist the WVDEP in identifying an acceptable ILF site where restoration, enhancement, establishment or preservation may be performed which would be protected by a real estate instrument in perpetuity.
