Notice No. 04-35

Date: June 9, 2004

C. W. Bill Young L/D, Allegheny River, Mile 14.5
Replace River Wall Emptying Valve and Renovate Operating
Machinery in the Single 56' x 360' Lock Chamber

1. **To All Whom It May Concern:** Notice is given that the U.S. Army Corps of Engineers' Repair Fleet will be replacing the river wall emptying valve and renovating the operating machinery in the single 56' x 360' lock chamber at C. W. Bill Young L/D, Allegheny River. The repair work is scheduled to begin 1:00 AM on August 17, 2004 and will be completed by 11:00 PM on August 27, 2004.
2. The normal operating schedule of the single 56' x 360' lock chamber will remain in effect during this repair period. Minor delays to river traffic are anticipated.
3. General wear and deterioration of the valve has made it necessary to schedule this work.
4. Navigators please note the location and duration of this work and use caution when entering or leaving the lock chamber. The Repair Fleet will be moored on the outside of the river wall, downstream of the dam.

FOR THE DISTRICT ENGINEER:

/signed/

Richard C. Lockwood
Chief, Operations and
Readiness Division
