Notice No. 07-28

Date: September 28, 2007

---

Pike Island L/D, Ohio River, Mile 84.2  
Replace Land Wall Filling Valve and  
Renovate Operating Machinery in the  
110-ft x 600-ft Land Lock Chamber

1. To All Whom It May Concern: Notice is given that the U.S. Army Corps of Engineers' Repair Fleet will replace the land wall filling valve and renovate its operating machinery in the 110-ft x 600-ft land lock chamber at Pike Island L/D, Ohio River, Mile 84.2. The work is scheduled to begin at 1:00 A.M. on November 26, 2007 and be completed by about 11:00 P.M. on December 14, 2007.
2. The 110-ft x 600-ft land lock chamber will be closed to river traffic during this time period. All traffic will pass through the 110-ft x 1200-ft river lock chamber. Minor delays are expected.
3. General wear and deterioration of the valve and its operating machinery have made it necessary to schedule this work.
4. Navigators are requested to use caution while entering or leaving the lock chamber and approaches during the repair period.

FOR THE DISTRICT ENGINEER:

/signed/

Richard C. Lockwood  
Chief, Operations Division
