PUBLIC NOTICE

Section 408 Request to Alter the Bradford Local Protection Project For the Installment of a Utility Footbridge by American Refining Group, Inc. McKean County, Pennsylvania

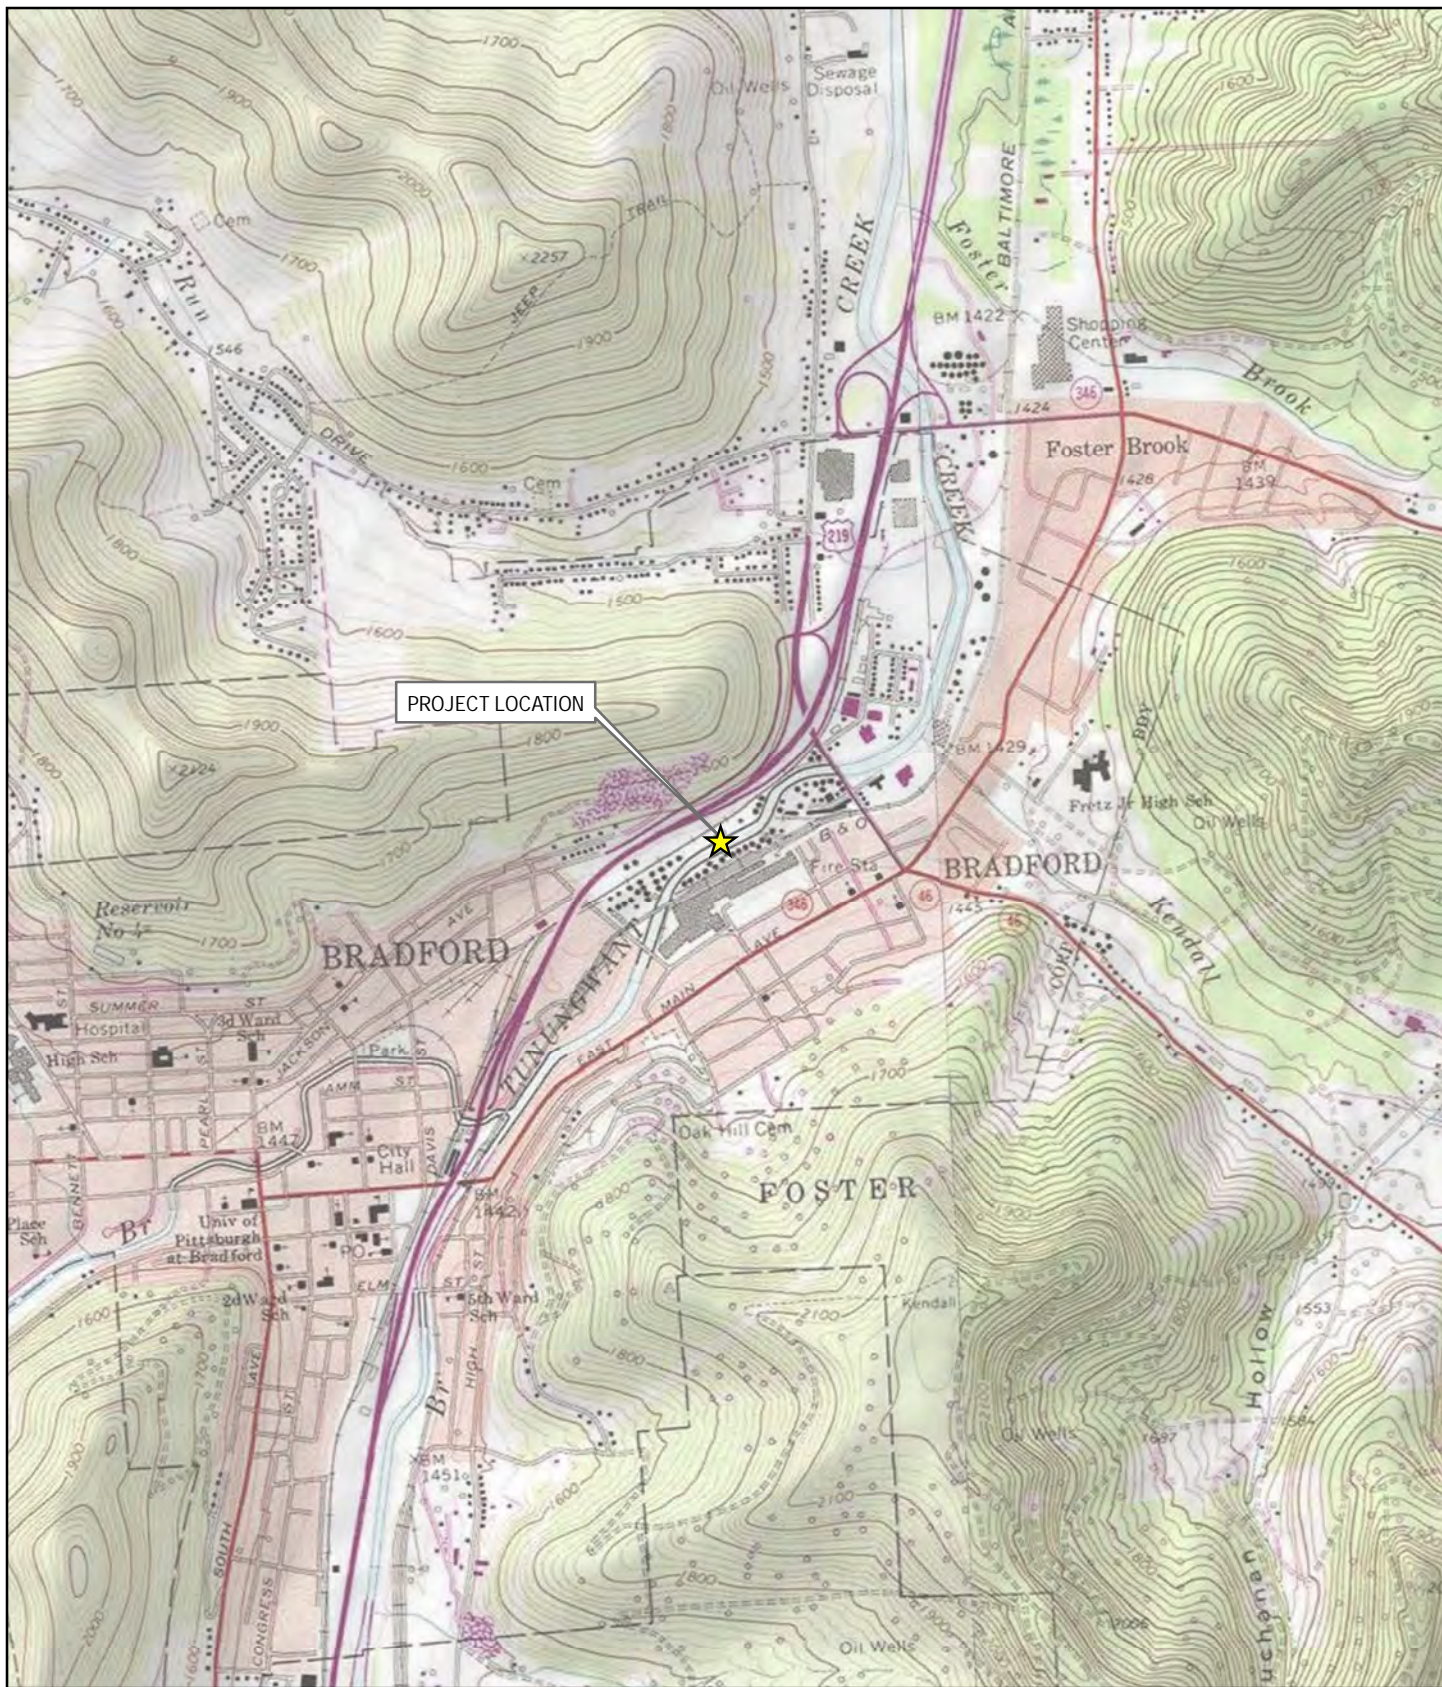

The U.S. Army Corps of Engineers, Pittsburgh District (USACE) is evaluating a proposed alteration to the Bradford Local Protection Project. The American Refining Group Inc. has submitted a request under 33 USC 408 (Section 408) to the US Army Corps of Engineers (USACE) Pittsburgh District to alter the Bradford Local Protection Project (LPP) for the installment of a utility footbridge over Tunungwant Creek. The proposed project will include the construction of bridge abutments located on opposing banks and installing by crane a pre-engineered truss bridge. See Figures 1 and 2 for location maps.

The USACE Pittsburgh District is currently performing a Section 408 review of the proposed alteration that includes engineering, environmental, and real estate considerations. Permission to alter the Bradford LPP will only be granted if review determines that the alteration will not be injurious to the public interest and will not impair the usefulness of the LPP.

The USACE invites submission of comments on the impact of approval of the Section 408 request. The USACE will consider all submissions received before the expiration date of the public notice period. The nature or scope of the proposal may be changed upon consideration of the comments received.

Comments can be submitted to the address posted at the top of this notice or to Julia.Butzler@usace.army.mil. Comments must be received by 15 November 2021 to ensure consideration.
