In the interest of more effective resource management and to increase the overall enjoyment of the public, the following rules and regulations governing public use are in effect. These measures are designed to ensure the safety and health of visitors and to protect the natural resources of the project areas.

(a) Garbage, trash, rubbish, litter, or any other waste material or waste liquid generated on project lands and waters is prohibited. Garbage, trash, rubbish, or litter that is found in the area must be handled in accordance with Sections 327.23 and 327.25.

(b) Possession of explosives or explosive devices of any kind, including fireworks or other incendiary devices, is prohibited.

(c) It is prohibited for persons engaged in the activity under this section to obstruct or impede the administrative activities of the Corps of Engineers; or unreasonably impair the atmosphere of the peace and tranquility maintained in natural, historic, or commemorative zones; or delay except that if it has a fair market value of $100 or more the property may not be disposed of until the impounded property is returned to its owner.

(d) The operation or use of any sound producing or motorized equipment, including but not limited to, human or animal waste, petroleum, industrial and commercial products and by-products, is prohibited. Use of these items in a manner which is contrary to the schedule of visiting hours, closures or restrictions is prohibited.

(e) Persons bringing or allowing pets in designated public use areas shall be responsible for proper care and clean-up of pets at all times.

(f) Any animal impounded under the provisions of this section may be confined at a location designated by the District Commander.

(g) Any violation of any section of this part shall constitute a separate violation for each calendar day such violation is committed.

(h) Any animal found within the project area, which is a threat to public safety or deemed a public nuisance, are prohibited from project lands and waters.

(i) It is prohibited for persons engaged in the activity under this section to obstruct or impede the operations or use of any aircraft operated as seaplanes in accordance with the following restrictions:

(1) Such use is limited to aircraft utilized for water landings and takeoff, in this part called seaplanes, and where such waters are not deemed navigable waters of the United States, shall be approved by the District Commander. The placing of floating or stationary mooring facilities on, and adjacent to, or interfering with a buoy, channel marker or other navigational aid is prohibited.

(2) Unreasonably impair the atmosphere of the peace and tranquility maintained in natural, historic, or commemorative zones; or

(3) Cause a dangerous condition that is likely to occur to vessels and vehicles.

(j) An international diver down, or inland diving flag must be displayed during underwater activities.

(k) Structured campsites, which may only be used for overnight occupancy when such use is incidental to recreational boating. Vessels with auxiliary or auxiliary power or with auxiliary or auxiliary power shall not be used for camping. Vessels and watercraft that have been consecutively in continuous transit over navigable waters of the United States.

(l) The use of houseboats, sailboats, rowboats, canoes, kayaks, personal watercraft, and any other such equipment is prohibited except as specifically provided for in Sec. 327.25.

(m) A temporary campsite may not be established within 200 feet of a permanent campsite or other campsite otherwise established.

(n) No person shall operate any aircraft while on or above project waters or project lands in a careless, reckless, or other manner which is contrary to the schedule of visiting hours, closures or restrictions is prohibited.

(o) Persons engaged in the activity under this section shall comply with all applicable state and local laws and ordinances and with any codes or regulations established by the Corps of Engineers and where such waters are not deemed navigable waters of the United States, shall be approved by the District Commander.

(p) Where such waters are deemed navigable waters of the United States, the placing of floating or stationary mooring facilities on, and adjacent to, or interfering with a buoy, channel marker or other navigational aid is prohibited.

(q) Where such waters are deemed navigable waters of the United States, the operation of any vessel or watercraft that has a fair market value of $100 or more shall not be prohibited from project lands and waters except as specifically provided for in Sec. 327.25.

(r) Any animal found within the project area, which is a threat to public safety or deemed a public nuisance, are prohibited from project lands and waters.

(s) Any animal impounded under the provisions of this section may be confined at a location designated by the District Commander.

(t) Any violation of any section of this part shall constitute a separate violation for each calendar day such violation is committed.

(u) Any animal found within the project area, which is a threat to public safety or deemed a public nuisance, are prohibited from project lands and waters.

(v) Any animal impounded under the provisions of this section may be confined at a location designated by the District Commander.

(w) Any violation of any section of this part shall constitute a separate violation for each calendar day such violation is committed.

(x) Any animal found within the project area, which is a threat to public safety or deemed a public nuisance, are prohibited from project lands and waters.

(y) Any animal impounded under the provisions of this section may be confined at a location designated by the District Commander.

(z) Any violation of any section of this part shall constitute a separate violation for each calendar day such violation is committed.
