Notice No. 13-44

Date: December 12, 2013

New Cumberland Locks and Dams, Ohio River, Mile 54.4

Removal of Bulkhead Filler Blocks in Auxiliary Lock Chamber

1. **To All Whom It May Concern:** Notice is given that the bulkhead slot filler blocks have been removed in the 110-ft x 600-ft auxiliary lock chamber in anticipation conducting ice lockages during the winter months. Mariners should use caution when entering and exiting the chamber and ensure that tows are flat against the wall to prevent catching and damaging the bulkhead slot.

2. Interested parties are encouraged to contact the locks by Marine Radio or telephone for any questions, concerns, or specific instructions at:

New Cumberland Lock and Dam, Telephone 740-537-2571

FOR THE DISTRICT ENGINEER:

//Signed//
Richard C. Lockwood
Chief, Operations Division
