Notice No. 14-32 (Revision No. 1)

Date: July 7, 2014

Warning to Recreational Boaters

UPDATE:

1. Reference: Notice to Navigation No. 14-11, Dam Warning Buoys.
2. **To All Whom It May Concern:** The "KEEP OUT - DAM" buoys placed upstream and downstream of the navigation dams on the Allegheny River are **NOT** in place. Many of them have moved off station or have been washed away because of recent high river conditions.
3. Recreational boaters are cautioned to approach the locks and dams with **extreme** care, especially when proceeding downstream. Boaters are urged to consult the Navigation Charts when approaching the locks and dams to be absolutely sure of the landmarks on the river. It should **NOT** be assumed that these Navigation aids will be on station to identify the Dam Danger Zones. Buoys will be recovered and reset when river levels make it safe to do so.

FOR THE DISTRICT ENGINEER:

// Signed //
Richard C. Lockwood
Chief, Operations Division
