Public Notice

U.S. Army Corps of Engineers
Pittsburgh District

In Reply Refer to
US Army Corps of Engineers, Pittsburgh District
Notice No. below
1000 Liberty Avenue
Pittsburgh, PA 15222-4186

Application No. 2013-2051 Date: May 27, 2015

Notice No. 15-18 Closing Date: June 26, 2015

1. TO ALL WHOM IT MAY CONCERN: The following application has been submitted for a Department of the Army Permit under the provisions of Section 404 of the Clean Water Act.

2. APPLICANT: Consolidation Coal Company
46266 National Road
St. Clairsville, OH 43950

3. LOCATION: Tributary to Jones Creek, Nolan Run Slurry Impoundment, Lumberport, Harrison County, West Virginia (39.407357N, 80.394799W)

4. PURPOSE AND DESCRIPTION OF WORK: The applicant proposes to raise the crest elevation to 1340 feet to accommodate additional coal refuse from the Robinson Run Mine operations. This modification would result in the permanent loss of 2,807 linear feet of stream channel, 260 linear feet of impoundment outlet channel, 0.24 acre of wetland and 1.88 acre of open water. The dam will build upon stages 1 through 3 that have previously been constructed. Proposed Stage 4 will raise the main embankment to 1310 feet, construct the main buttress, and construct the rear embankment. Stage 5 will raise the main embankment to 1340 feet and construct the rear embankment. The additional capacity that this modification provides will accommodate the current life-of-mine projections. The applicant is currently evaluating the use of a mitigation bank and/or in lieu fee payment to compensate for the proposed impacts. Drawings of the proposed impoundment modification are attached to this notice and additional information is available upon request.

5. WEST VIRGINIA CERTIFICATION: This permit decision will not be made until the State of West Virginia, Division of Environmental Protection (WVDEP), issues, denies, or waives State Certification. This public notice does not serve as application to the WVDEP for certification required by Section 401 of the Clean Water Act. An individual 401 water quality certification (WQC) may be required for this proposed activity in conjunction with the Section 10 of the Rivers and Harbors Act permit and/or Section 404 of the Clean Water Act permit. The
applicant must apply directly to the WVDEP for an individual 401 WQC. The WVDEP will also consider whether or not the proposed activity will comply with sections 301, 302, 303, 306, 307 of the Clean Water Act or any other appropriate State laws. Please contact the below to determine if a individual 401 WQC is required for this proposed activity:

WVDEP Division of Mining and Reclamation
47 School Street, Suite 301
Philippi, WV 26416
Phone: (304) 457-3219

6. **IMPACT ON NATURAL RESOURCES:** The District Engineer has consulted the most recently available information and has determined that the project may affect, but is not likely to adversely affect endangered species or threatened species, or result in destruction or adverse modification of habitat of such species which has been determined to be critical. A mist survey is planned for the summer of 2015. Results from this survey will be submitted to West Virginia Department of Environmental Protection for review. This Public Notice serves as a request to the U.S. Fish and Wildlife Service for any additional information they may have on whether any listed or proposed to be listed endangered or threatened species may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1972 (as amended). If the U.S. Fish and Wildlife Service concurs with the may affect, not likely to adversely affect determination please respond with written concurrence.

7. **IMPACT ON CULTURAL RESOURCES:** West Virginia Culture and History has been consulted and requested additional information on both architectural and archeological resources. If we are made aware, as a result of comments received in response to this notice, or by other means, of specific archeological, scientific, prehistorical, or historical sites or structures which might be affected by the proposed work, the District Engineer will immediately take the appropriate action necessary pursuant to the National Historic Preservation Act of 1966 - Public Law 89-665 as amended (including Public Law 96-515).

8. **PUBLIC INVOLVEMENT:** Any person may request, in writing, within the comment period specified in the paragraph below entitled "RESPONSES," that a public hearing be held to consider this application. The requests for public hearing shall state, with particularity, the reasons for holding a public hearing.

9. **EVALUATION:** Interested parties are invited to state any objections they may have to the proposed work. The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposals must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic
properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people. The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the overall public interest of the proposed activity. The evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency, under the authority of Section 404(b) of the Clean Water Act (40 CFR Part 230).

10. RESPONSES: A permit will be granted unless its issuance is found to be contrary to the public interest. Written statements concerning the proposed activity should be received in this office on or before the closing date of this Public Notice in order to become a part of the record and to be considered in the final determination, comments can be mailed to:

   U.S. Army Corps of Engineers, Pittsburgh District
   1000 Liberty Avenue
   Pittsburgh, PA 15222-4186
   Re: Public Notice CELRP-OP-F No. 15-18

Any objections which are received during this period may be forwarded to the applicant for possible resolution before the determination is made whether to issue or deny the requested DA Permit. All responses to this notice should be directed to the Regulatory Branch, attn Jared N. Pritts at the above address, by telephoning (412) 395-7251, or by e-mail at jared.n.pritts@usace.army.mil Please refer to CELRP-OP-F 2013-2051 in all responses.

FOR THE DISTRICT ENGINEER:

//SIGNED//

Karen A. Kochenbach
Chief, Southern Section
Regulatory Branch
