Public Notice

TO ALL WHOM IT MAY CONCERN: The following application has been submitted for a Department of the Army Permit under the provisions of Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

2. APPLICANT: Hanson Aggregates BMC, Inc.
   2200 Springfield Pike
   Connellsville, PA 15425

3. LOCATION: Ohio River Dashields Pool Mile 10.4 to 10.5 Left Descending Bank and Mile 10.5 to 10.7 Both Banks Allegheny County, Pennsylvania.

4. PURPOSE AND DESCRIPTION OF WORK: The applicant proposes to commercially dredge sand and gravel from Ohio River Mile 10.4 to 10.5 Left Descending Bank and Mile 10.5 to 10.7 Both Banks to provide aggregate for construction projects conducted by multiple contractors in western Pennsylvania, eastern Ohio, and northern West Virginia. The ultimate use of the material is for highway and runway construction and maintenance, commercial and private construction, infrastructure repair and construction, and numerous other specialized purposes. As mitigation for the proposed dredging impacts, the applicant is proposing to set-aside the entire Allegheny River and the Emsworth Pool of the Ohio River precluding impacts from their dredges. Hanson is proposing to maintain Ross and Jacks Islands on the Allegheny River in their present natural state and not entertain any purchase offers from a third party during the term of the permit. Additionally, as mitigation, Hanson is proposing a salamander mussel habitat creation project on the Allegheny River. A map depicting the proposed dredge area is attached to this Public Notice.

5. ENCROACHMENT PERMIT: The applicant must obtain a Water Obstruction and Encroachment Permit which includes 401 Water Quality Certification from the:

   Pennsylvania Department of Environmental Protection
   Southwest Regional Office
   Waterways and Wetlands Section
   400 Waterfront Drive
   Pittsburgh, PA 15222-4745

   Telephone: 412-442-4000
6. **IMPACT ON NATURAL RESOURCES:** The District Engineer has consulted the most recently available information, reviewed Phase I and II mussel surveys of the proposed dredge area, and has corroborated a Supplemental Biological Assessment (to the original Biological Assessment revised 18 February 2005). As a result, the project may affect, but is not likely to adversely affect endangered species or threatened species, or result in destruction or adverse modification of habitat of such species which has been determined to be critical. This Public Notice serves as a request to the U.S. Fish and Wildlife Service for any additional information they may have on whether any listed or proposed to be listed endangered or threatened species may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1972 (as amended). If the U.S. Fish and Wildlife Service concurs with the may affect, not likely to adversely affect determination please respond with written concurrence. If the service does not concur, please provide a Biological Opinion in response to the aforementioned Supplemental Biological Assessment that will be provided under separate cover.

7. **IMPACT ON CULTURAL RESOURCES:** The National Register of Historic Places has been consulted, and it has been determined that there are no properties currently listed on the register which would be directly affected by the proposed work. If we are made aware, as a result of comments received in response to this notice, or by other means, of specific archeological, scientific, prehistorical, or historical sites or structures which might be affected by the proposed work, the District Engineer will immediately take the appropriate action necessary pursuant to the National Historic Preservation Act of 1966 - Public Law 89-665 as amended (including Public Law 96-515).

8. **PUBLIC INVOLVEMENT:** Any person may request, in writing, within the comment period specified in the paragraph below entitled "RESPONSES," that a public hearing be held to consider this application. The requests for public hearing shall state, with particularity, the reasons for holding a public hearing.

9. **EVALUATION:** Interested parties are invited to state any objections they may have to the proposed work. The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposals must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people. The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity.
Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the overall public interest of the proposed activity. The evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency, under the authority of Section 404(b) of the Clean Water Act (40 CFR Part 230).

10. **RESPONSES:** A permit will be granted unless its issuance is found to be contrary to the public interest. Written statements concerning the proposed activity should be received in this office on or before the closing date of this Public Notice in order to become a part of the record and to be considered in the final determination. Any objections which are received during this period may be forwarded to the applicant for possible resolution before the determination is made whether to issue or deny the requested DA Permit. All responses to this notice should be directed to the Regulatory Branch, attn Tyler Bintrim at the above address, by telephoning (412) 395-7115, or by e-mail at tyler.j.bintrim@usace.army.mil. Please refer to CELRP-OP-F 2002-1005 in all responses.
