Public Notice

U.S. Army Corps of Engineers
Pittsburgh District

In Reply Refer to US Army Corps of Engineers, Pittsburgh District
Notice No. below 1000 Liberty Avenue
18-07 Pittsburgh, PA 15222-4186

Application No. 2012-518 Date: July 26, 2018

Notice No. 18-07 Closing Date: August 26, 2018

1. TO ALL WHOM IT MAY CONCERN: The following application has been submitted for a Department of the Army Permit under the provisions of Section 404 of the Clean Water Act.

2. CO-APPLICANTS:

   Shelby Run Mining Company, LLC  CoalQuest Development
   P.O. Box F  P.O. Box F
   Sharples, West Virginia 25183  Sharples, West Virginia 25183

3. LOCATION: Unnamed Tributaries of Shelby Run and Shelby Run and Unnamed Tributaries of Berry Run and Berry Run near County Road 38, Wendel, Taylor County, West Virginia (39.30805/-80.078611)

4. PURPOSE AND DESCRIPTION OF WORK: The applicants propose to construct the Shelby Run Deep Mine (Shelby Run Mining Company) and railroad (CoalQuest Development). Construction of the mine includes all work necessary to enable excavation and construction of the ancillary facilities. The ancillary facilities would include: a preparation plant facility, load-out, stockpiles, access roads, combined coal refuse facility, construction of retention ponds, one overburden storage fill, one refuse facility, and erosion control (i.e. ponds, sumps, drainage ditches, riprap, matting, etc.) structures. Construction of the rail road includes a 3.46 mile rail-siding connected to an existing rail line (which provides a minimum storage of 135 rail cars) that will service the Shelby Run Mine. The railroad and mine are considered to be one single and complete project with two separate applicants. The project proposes to permanently impact 14.327 acres of thirty-one wetlands, 0.493 acre of open water (14.82 functional credit units as determined by the West Virginia Stream and Wetland Valuation Metric v2.1 (SWVM)), and 20,644 linear feet (2 acres) of 58 streams (13.664.3248 functional credit units as determined by the SWVM). The applicant has provided a conceptual mitigation plan involving the installation of stream enhancements in Squires Creek, a tributary in the Tygart River watershed. The Squires Creek Mitigation Project would also provide for an overall riparian zone protection of 150 feet and enhancements to, and protection of, wetland areas created from the construction and operation of passive treatment/bioreactors.

5. WEST VIRGINIA CERTIFICATION: This permit decision will not be made until the State of West Virginia, Division of Environmental Protection (WVDEP), issues, denies, or waives State Certification. This public notice does not serve as application to the WVDEP for
certification required by Section 401 of the Clean Water Act. An individual 401 water quality certification (WQC) may be required for this proposed activity in conjunction with the Section 10 of the Rivers and Harbors Act permit and/or Section 404 of the Clean Water Act permit. The applicant must apply directly to the WVDEP for an individual 401 WQC. The WVDEP will also consider whether or not the proposed activity will comply with sections 301, 302, 303, 306, 307 of the Clean Water Act or any other appropriate State laws. Please contact the below to determine if an individual 401 WQC is required for this proposed activity:

Ms. Wilma Reip, 401 Program Manager
Phone: 304-962-0499 ext. 1599
E-mail: Wilma.reip@wv.gov

6. IMPACT ON NATURAL RESOURCES: The District Engineer has consulted the most recently available information and has determined that the project may affect, but is not likely to adversely affect endangered species or threatened species, or result in destruction or adverse modification of habitat of such species which has been determined to be critical. This Public Notice serves as a request to the U.S. Fish and Wildlife Service for any additional information they may have on whether any listed or proposed to be listed endangered or threatened species may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1972 (as amended). If the U.S. Fish and Wildlife Service concurs with the may affect, not likely to adversely affect determination please respond with written concurrence.

7. IMPACT ON CULTURAL RESOURCES: The National Register of Historic Places has been consulted, and it has been determined that there are no properties currently listed on the register which would be directly affected by the proposed work. If we are made aware, as a result of comments received in response to this notice, or by other means, of specific archeological, scientific, prehistorical, or historical sites or structures which might be affected by the proposed work, the District Engineer will immediately take the appropriate action necessary pursuant to the National Historic Preservation Act of 1966 - Public Law 89-665 as amended (including Public Law 96-515).

8. PUBLIC INVOLVEMENT: Any person may request, in writing, within the comment period specified in the paragraph below entitled "RESPONSES," that a public hearing be held to consider this application. The requests for public hearing shall state, with particularity, the reasons for holding a public hearing.

9. EVALUATION: Interested parties are invited to state any objections they may have to the proposed work. The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposals must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the
The proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people. The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the overall public interest of the proposed activity. The evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency, under the authority of Section 404(b) of the Clean Water Act (40 CFR Part 230).

10. RESPONSES: A permit will be granted unless its issuance is found to be contrary to the public interest. Written statements concerning the proposed activity should be received in this office on or before the closing date of this Public Notice in order to become a part of the record and to be considered in the final determination, comments can be mailed to:
